5. 본인 소감 및 평가

I really think I am a very lucky person. Why I say this is because I always meeting nice people. Just like my homestay father mother and roommate. They cared about me; helped me with my English every day . My homestay father is Alex and he is very humorous . He like kidding me . However, once I say I want to on die ; he will say : "No , you don't need ;you are perfect. I hope you have breakfast everyday. " He always wants me to eat as much as possible. He really likes music; he asked

if I know the song he played every time. He also plays guitar; I think he is an excellent guitar player. Because I went to watch his performance last weekend. My homestay mom Bony is a wise and kind person. She helps a lot with my English vocabulary and pronunciation. We bring dogs for a walk everyday after supper. We talked a lot about China, Korea and Canada while walking. Besides, both of them are good cook; that's why I gain weight recently. I really appreciate Algom university gave me such a nice homestay.

본인의 경험담, 느낀점, 향후 계획 등을 솔직하고 자유롭게 작성해 주세요.

In my case , I think it's a very good chance for students who want to experience Canada culture and improve oral English. As a matter of fact, three weeks is too short to learn something deeply. So the short term language learning is more like cultural experience. Language learning is a long process, can't be very good in a short time .

I don't think we need to prepare too many things. According to the temperature clothes need to be prepared well. Then transverse also need buy. Preparing some cash also can be convenient.
