Build a strong academic base and ignite your passion for scientific exploration. A two-year Associate of Science degree or course studies in the sciences develops students' abilities to think critically, experiment, and solve problems using scientific principles in a dynamic learning environment.

Whether you are interested in education, health sciences, nutrition, forestry, medicine, dentistry, or research, a foundation in the sciences provides the building blocks for future studies and undergraduate degrees.

BUSINESS

"The Okanagan School of Business was where I practiced business techniques offered up by professionals who instructed from experience. These were mentors imparting real-world tools and wisdom in classrooms that transformed theory into substance. I would recommend the program to anyone with a hunger to explore the practical value of applied business. Get involved. Get connected. The opportunities to join national competitions and take part in research and community projects will give you a big head-start."

Leighton Coombs graduated in 2016 with a Bachelor of Business Administration degree with a specialization in marketing. He is already putting his business skills to work for a number of community-focused organizations.

B.C.'S \$23 BILLION TECH SECTOR EMPLOYS 86,000 PEOPLE, AND WAGES FOR THOSE JOBS ARE 60 PER CENT HIGHER THAN THE PROVINCE'S INDUSTRIAL AVERAGE.*

*British Columbia Technology Report Card 2014

"My passion has always been in computers, so I wanted a program and a career that would feel more like fun and less like work. I've already had the chance to participate in international competitions and meet employers from all over the world. The instructors are incredibly knowledgeable and have their fingers on the pulse of trends in the sector. It's very exciting knowing I'll be out in the industry soon and will get my chance to be a trailblazer."

"I feel like there is a great deal of support available at Okanagan College. The instructors share their experiences and all the lessons they've learned during their careers. Between the theoretical knowledge in class and the hands-on training I gained during my practicum in a busy hospital, I feel very well prepared and confident for the career ahead of me."

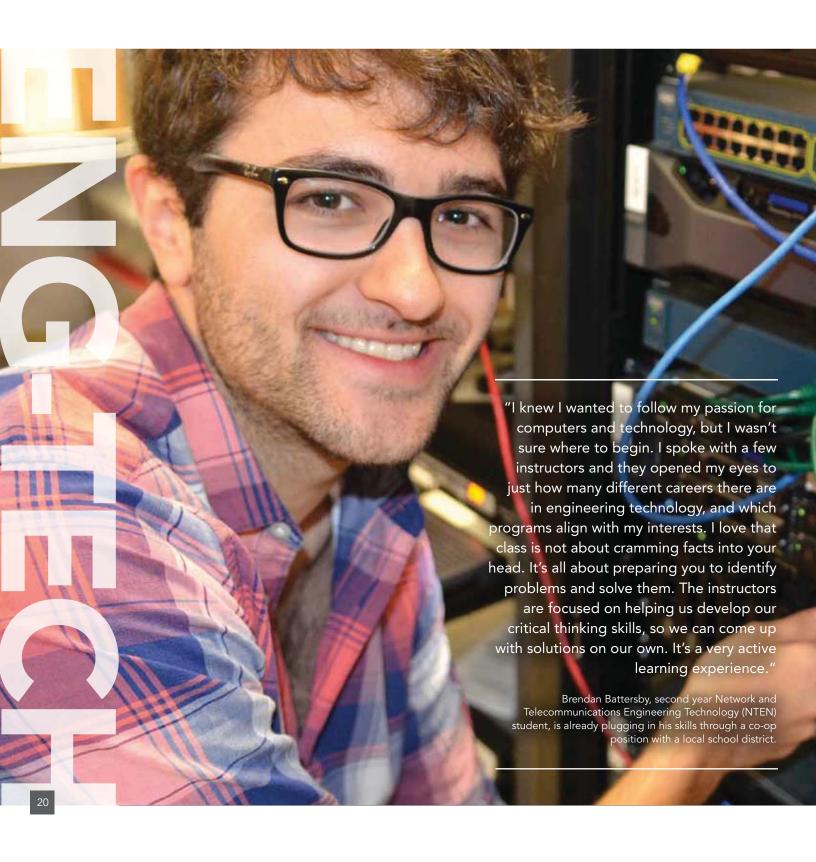

Alisha Lemke is finishing the last semester of her Therapist Assistant diploma.——

HEALTH AND SOCIAL DEVELOPMENT

Improve people's lives through health and well-being. Okanagan College's health care, early childhood education, and human service work programs provide the theoretical and technical training you need, in a small-class size setting, to achieve a rewarding career providing excellence in patient and client care.

Across the country, career opportunities in health care continue to grow rapidly as the population ages and society places an increased premium on wellness and vitality. Develop specialized expertise through one of Okanagan College's many certificate and diploma programs in a variety of applied and in-demand fields. Step into a career in caring.

ENGINEERING TECHNOLOGIES

Gear up to be job-ready and gain a competitive advantage with the technical know how, versatile skills and real-world experience you'll acquire through Okanagan College's engineering technology programs. Instructors bring their sector experience and partnerships into small class-size settings to ensure you get the most out of your education.

Engineering technology students explore how things work and provide technology solutions that help structure our cities, communities, businesses, and buildings. Take advantage of the co-op program and work-integrated learning opportunities to gain a head-start on your career. Visit okanagan.bc.ca/coop for details.

FOUNDATIONAL PROGRAMS

Okanagan College's Foundational programs offer the boost you need to achieve your educational goals. Our dedicated teachers, small classes, and individual attention will support you in obtaining prerequisite credentials so that you can pursue the career of your dreams, develop essential skills, or improve your language skills.

ADULT BASIC EDUCATION (UPGRADING)

Complete the prerequisites, or improve your high school marks, to get into the program of your choice with upgrading in a variety of subjects including biology, chemistry, computer studies, English, mathematics and social studies at the fundamental, intermediate, advanced and provincial level. Adult learners can obtain their high school graduation requirements with the B.C. Adult Graduation Diploma (Adult Dogwood).

Get started upgrading today. There is significant financial aid available that may cover the cost of your tuition. Learn more and apply online at okanagan.bc.ca/abechanges.

ADULT SPECIAL EDUCATION

Adult Special Education offers a variety of courses and certificate programs for students with special learning needs who wish to work on employment preparation skills, academic skills and independent living skills.

- Advanced Skills
- Basic Skills A
- Basic Skills B
- Preparing for Access to Careers and Education (PACE)
- Supported Access to Modified Education (SAME)

ENGLISH SKILLS

Whether you are an international student, Canadian citizen or permanent resident, Okanagan College offers both the English as a Second Language (ESL) and the English for Academic Purposes (EAP) programs at the beginner, intermediate and advanced levels to ensure students reach their English oral, written and comprehension proficiency goals.

WE'RE HERE Su th FOR Y W th an an

An inclusive and supportive environment with personalized education plans contributes to the success of Okanagan College's Aboriginal students. Located within the traditional territories of the Okanagan and Shuswap Nations, our four campuses are home to Aboriginal Services Centres that provide educational advising, transitions planning, peer mentorship, study and social spaces in a comfortable setting for students.

We are dedicated to providing culturally relevant support to Aboriginal students as they pursue their educational and career goals. Each year the College hosts a Powwow, Aboriginal career fair, and an achievements recognition ceremony that honours traditions. We celebrate the rich culture and heritage that all students bring to Okanagan College. We invite you to join our community.

"From my own experience as a student, I know there can be fears and anxieties when thinking about post-secondary. But my advice to you, future student, would be: go for it. OC is like an extended family and we are a community here to support you. Education and learning is all about conquering our fears and living our dreams."

Jennifer Leason is a highly regarded Anishina-kwe scholar and PhD candidate who teaches Gender, Sexuality and Women's Studies at Okanagan College. She recently piloted a new course on Canadian Indigenous Women's Perspectives, Indigenous Feminism, Oppression and Resistance. Her research focuses on Indigenous women's maternal and reproductive health in Canada.

"What really elevated the experience for me was the way our instructors helped us develop business skills and a higher standard of professionalism, in addition to the technical skills and knowledge we gained. I learned how to put my best foot forward, both with clients and potential employers. The connections I made with local business owners helped me land a job right after graduation."

Stacy Vargas earned her Esthetics & Nail Technician Certificate at Okanagan College in 2015. She works at Crave Spa in Vernon.

CHOOSE YOUR PROGRAM

PROGRAM OFFERINGS AND ADMISSION REQUIREMENTS

Okanagan College offers a wide range of credentials in a variety of disciplines. Many programs and courses transfer to universities in B.C. and beyond. Fall, winter and summer sessions, combined with opportunities for full-time, part-time and distance learning, offer students flexible learning options. B.C. secondary school graduation or equivalent (see mature applicants) is required for entry into all degree, diploma, associate degree and most certificate programs. See the calendar at okanagan.bc.ca/calendar for complete admission and minimum grade requirements for all programs.

ENGLISH REQUIREMENTS:

Most programs that require English 12 will also accept English 12 First Peoples, or equivalent Provincial Level Adult Basic Education English. Communications 12 is not acceptable. Applicants without English 12 can complete the Language Proficiency Index (LPI) exam to satisfy the English requirements of most programs at Okanagan College.

MATHEMATICS AND SCIENCE REQUIREMENTS:

Most programs that require Mathematics, Chemistry, Biology or another science will also accept the equivalent Adult Basic Education (ABE) course. Challenge tests or competency exams may be available for courses. Details can be found in the Calendar.

As the B.C. secondary school Mathematics curriculum changes frequently, other courses may be acceptable.

REGULAR APPLICANTS:

Regular applicants are considered students who graduated from secondary school (or equivalent) or are currently enrolled in Grade 12.

MATURE APPLICANTS:

Mature applicants are at least 19 years of age and have been out of full-time secondary school for at least one year prior to commencement of their program. Grade 12 graduation is not required (unless specified), but the applicant must satisfy all general and program-specific admission requirements.

NOTES:

If no percentage grade is indicated for a course that is required for admission to a program, the grade required is 50%. The admission requirements listed on the following pages were current as of the publication date. Please be advised that admission requirements may have changed. All prospective students are advised to see Okanagan College's online Calendar for detailed admission requirements for every program.

Graduates work as software developers, computer programmers, database designers and administrators, information systems and programmer analysts, web application designers and developers, and user support technicians. Co-op options are available. Students have the opportunity to develop information systems and applications for local industrial companies within capstone project courses and participate in applied industrial research.

4 years; K*; PT/FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 11 60%, FM 12 60% or proficiency test, additional requisites (see Calendar)

DIPLOMA

Computer Information Systems

Lab and classroom learning covers programming, software development, database management, web applications development, and other topics. Graduates work as computer programmers, web application developers, software developers, and information systems help desk technicians. This CIS Diploma seamlessly ladders into the third year of the BCIS degree program. Co-op options are available. 2 years; K*; PT/FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 11 60%, FM 12 60% or proficiency test, additional requisites (see Calendar)

CONTINUING STUDIES

CERTIFICATES

Aboriginal Community Support Worker

For persons supporting and assisting Aboriginal Individuals and families, both on- and off-reserve, to enhance their quality of life. In addition to covering the core training required by all community workers, this program enables learners to develop knowledge and direct employment-related skills required to work with the unique needs of Aboriginal people and communities. 375 hours; SA; PT; ENG 12 60%, Criminal Record Check

Advanced GIS

Introduces the essentials of using geographic information systems (GIS) to create maps and edit and manage GIS data. Students will gain in-depth knowledge of raster analysis, working with 3D data and network data sets. 500 hours; SA; FT; CF 60%

Audio Engineering and Music Production

Learn to produce digital recordings for musicians and music groups, mix live concerts and sound reinforcement for public events, and work on audio postproduction for film, video, computer animations and games.

730 hours; K; FT; ENG 12 60%, AWM 10, CF 60%

Autism Spectrum

For persons who work, interact and/or live with persons with Autism Spectrum Disorder (ASD). Courses provide a thorough overview of ASD focusing on both theory and practical skills that can be used to greatly enhance the quality of interactions with persons with autism in home, educational, daycare, social work or caregiver settings. 81 hours; K/SA; PT; ENG 12 60%

AutoCAD Skills

If you want to work in today's drafting and design industry, you must be able to use industry-standard AutoCAD software. Prepare technical drawings for a variety of manufacturers, including those in the machining, electronics and woodworking fields. Learn the basic CAD skills required to prepare working drawings for architecture, surveying, mapping and graphic arts. 160 hours; K/N; PT; CF

Basic Accounting

Learn accounting concepts, generally accepted accounting principles, and the rules of debit and credit. Understand the accounting cycle for a service business and how to manage a general ledger, prepare financial statements, periodic adjustments and year-end books, customer and vendor-tracking for a merchandising business, as well as inventory concepts, sales taxes, internal cash controls, and payroll preparation. Graduates can apply for transfer credit into BUAD 111.

Bookkeeping Certificate

Students gain the knowledge and skills of the complete bookkeeping cycle, from how to set up a company through the full year's business cycle for computerized accounting systems. In this certificate, students will learn a computerized accounting program, apply their knowledge to spreadsheets, plus gain an in-depth understanding of payroll administration.

123 hours; P/K/V/SA/D; PT; one of BUAD 111, OADO 140 and 141, BAC 11 and 12, Accounting 12 70%

Building Service Worker

Provides students with the knowledge and practical skills for entry into the building service industry in custodial work, and upgrading for those who are currently employed in the industry. The program includes theory, demonstrations, and practical skills training in the classroom and in appropriate work areas. 114 hours; P/K/V/SA; PT; ENG 10, physician's note confirming good health

Dental Office Administrative Assistant

An introduction to the skills required for employment as a dental office administrative assistant. Students receive an introduction to dentistry and routine dental procedures, and learn maintenance of patient records, insurance forms, appointment control, and record keeping within a computerized environment. Emphasis is on effective oral and written communication, and professionalism in the dental office.

120 hours; P/K/V; PT; 35 WPM, CF, CPR Level C

Education Assistant

Education assistants perform a variety of duties in schools, including helping to implement Individualized Education Plans for children with exceptionalities in the areas of cognitive abilities, physical challenges, health issues, behavioral challenges, autism and related disorders. Students will gain hands-on experience through a 120-hour practicum in the classroom.

417 hours; P/K/V/SA; PT/FT; ENG 12 60%, CF 60%, Criminal Record Check

Esthetics and Nail Technology

Learn the latest industry techniques for a wide range of treatments including spa-level manicures and pedicures, artificial nail enhancements, skin care and facials, waxing essentials, aromatherapy, reflexology, relaxation and hot stone massage, body scrubs and wraps, eye lash and brow tinting, and make-up foundations. Students find work in day spas, destination spas, cruise ships or as entrepreneurs. 1,100 hours; V; FT

Floral Design

Work as a floral designer or upgrade your current abilities and skills. This certificate program emphasizes retail floristry, including small business and franchise retail outlets. Program content concentrates on the basic principles of plant care, floral design and floral arrangements for special events. 150 hours: K: PT

Gastroenterology Nursing

The online Gastroenterology Nursing Certificate (GNC) provides learners with the knowledge and practical skills for entry into endoscopic nursing.

301 hours; PT/D; active practicing license with a respective provincial professional body (RN, LPN), additional reqs (see Calendar)

Interior Decorating

Learn the basics of interior decorating, drawing floor plans and sketching furniture, as well as advanced skills, including how to mix fabrics, work with colour, employ light and choose accessories. This program provides information through theory and practical assignments.

162 hours; P/K/V; PT

Landscape Horticulture

If you've got a green thumb, why not use it to make a living doing what you love? Learn the theory behind botany basics and soil science, including which ornamental plants are best for B.C.'s Interior. Dig deeper into plant selection, irrigation systems, pest management, pruning and cultivating. 120 hours; P/K/V/SA; PT

Leadership and Change Certificate

This applied leadership certificate is designed to enhance the character and competencies of learners and future leaders in five critical areas: enhancing personal credibility and authenticity; building team commitment; becoming positive change agents; building a community of learners and aligning systems, values, processes and structure to deliver results consistently. 144 hours; D; PT; Minimum two years of work experience

Leadership Skills

Develop your leadership skills and gain a professional edge in your career in this program that provides a foundation in the principles of leadership, building high performance teams, and performance management. Students will gain practical skills that they can immediately apply in their workplace. Formerly named Management Skills for Supervisors. 90 hours; P/K/V; PT

Medical Device Reprocessing Technician

With a focus on disease prevention, this program prepares students for a career combating microorganisms and creating safe and hygienic environments for patients. Apply learning in a 400-hour practicum in a hospital setting. Graduates are eligible to write the exams for the the Canadian Standards Association, as well as the International Association of Healthcare Central Service Material Management.

814 hours; K; FT; ENG 12 60%, OFA Level 1, CPR Level C, Criminal Record Check

Medical Office Assistant

Prepares students for employment in reception, clerical, or assisting positions in medical facilities. Students acquire oral and written communication skills, knowledge of office procedures and time management, medical terminology, computer medical billing, and apply medical office guidelines and medical and legal ethics standards. Program includes a 20-hour observation in a medical office.

254 hours; P/K/V; PT; ENG 12 60%, Standard First Aid, CPR

254 hours; P/K/V; P1; ENG 12 60%, Standard First Aid, CPR Level C, 40 WPM

Nursing Unit Assistant

A Nursing Unit Assistant is a key member of a hospital health care team who assembles and maintains patient charts, handles the admission, transfer, and discharge of patients, processes physicians' orders relating to medications, laboratory and diagnostic tests, and surgical or treatment plans, and performs standard receptionist duties. Program includes a 125-hour practicum in a hospital unit.

439 hours; P/K/V; PT; ENG 12 60%, 50 WPM, CF 60% or equivalent, Criminal Record Check, additional regs (see Calendar)

Occupational Health & Safety

Learners become familiar with effective health and safety systems, how to evaluate and continually improve these systems, health and safety legislation, facilitation techniques, ability management, risk management, investigations and audits. 272 hours; PT/D; ENG 12 60%, FM/P 10 60%, CF 60% or equivalent

Project Management

This intermediate-level certificate provides students with project management knowledge, strategies and tools that can be applied in workplaces in a variety of fields. Delivered in a blended learning format that offers a flexible and interactive learning environment, the certificate is designed for project managers at all levels. Students spend three weekends in total on the Kelowna campus and complete the remainder of the coursework online.

138 hours; PT/D; ENG 12 60%, FM 10, Excel Level One or Excel Level One online assessment

Teaching English as a Second Language

This program prepares students to work as ESL teachers of adult learners in Canada and overseas. It is comprehensive in educational theory and provides a hands-on approach to learning various second language-teaching strategies. It also offers students training in language principles and patterns, and addresses the application of this knowledge to the teaching of language skills, grammar, vocabulary and pronunciation. 140 hours; K/V; PT; ENG 12 70%

ENGINEERING TECHNOLOGIES

For information about Engineering Bridge programs to UBC Okanagan see okanagan.bc.ca/technologies.

DIPLOMAS

Civil Engineering Technology

Learn the skills used in design and construction of municipal, structural and transportation projects.

2 years; K; FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 12 60% and one of PHYS 11 60%, Applied PHYS 12, PHYS 12

Electronic Engineering Technology

Training in analog and digital electronic systems and equipment for jobs in the communications, microcomputer applications, and system controls fields.

2 years; K; FT; ENG 12 60%, PREC 11 67% or PREC 12 60%, and PHYS 11 60% $\,$

Mechanical Engineering Technology

Learn about the design, manufacture, installation, operation and maintenance of machines and mechanical devices.

2 years; K; FT; ENG 12 60%, PREC 12 60% and PHYS 11

Network and Telecommunications Engineering Technology

Prepare to work successfully in the field of local-area and widearea voice/data communications.

2 years; K; FT; ENG 12 60%, one of PREC 11 67%, PREC 12 60%, FM 12 60%

Sustainable Construction Management Technology

Gain a comprehensive understanding of what goes into largescale project management, with training and work experience in technical and business skills, emphasizing sustainable design principles.

3 years; P; FT; ENG 12 60%, PREC 11 67% or PREC 12 60%

Water Engineering Technology

Training in the design, use and maintenance of water systems, wastewater and waste disposal facilities, and environmental monitoring. Choose between Water and Wastewater Technology or Environmental Monitoring.

2.5 years; K; FT; ENG 12 60%, PREC 11 67% or PREC 12 60%, CHEM 11 67%

FOOD, WINE and TOURISM

DEGREE

Bachelor of Business Administration Tourism and Hospitality Management

The degree specialty provides students with an understanding of business and management practices within the global tourism and hospitality sector as well as a foundation in general business. Graduates are prepared for a career path leading to management positions within the tourism and hospitality sector.

4 years; Start at P/K/V/ SA and complete degree at K; PT/FT/D; ENG 12 70%, one of PREC 12 60%, FM 12 60%, AWM 12 60%

DIPLOMAS

Business Administration Diploma Tourism and Hospitality Management

The diploma option provides students with an understanding of business and management practices within the tourism and hospitality sector as well as a foundation in general business. This program can ladder into the BBA degree.

2 years; Start at P/K/V/SA and complete at K; PT/FT/D; ENG 12 60%, one of PREC 11 60%, FM 11 60%, AWM 11 60%

Culinary Management

Combining two semesters of academic study in business and 10 months of practical culinary training, this unique program prepares students for opportunities in the growing area of culinary management. Graduates receive technical training credit towards their cooking apprenticeship, hours credited toward their apprenticeship and academic credit for the Business Administration courses completed.

2 years; K*; FT; ENG 12 60%, one of PREC 11 60%, FM 11 60%, AWM 11 60%

Viticulture Technician

Gain the knowledge to work as part of the vineyard management team to plan, develop, plant and maintain a vineyard for the production of quality wine. The diploma program is structured around the viticulture growing season, providing opportunities to develop and apply skills leading to sustainable practices within commercial vineyards. Co-op options.

2 years; P; FT; ENG 12 60%, BIO 11, one of PREC 11 67%, FM 11 67%

CERTIFICATES

Culinary Arts

Designed for the student with a demonstrated interest in following a career in food preparation and service or as a chef, this program provides the necessary fundamental knowledge for employment in the food industry. Emphasis is placed on the practical aspects of food preparation, presentation and service. The teaching kitchens, cafeteria, restaurant and coffee shop provide a realistic training environment.

40 weeks; K/R; FT; ENG 10, FM 10 or AWM 10

Pastry Arts

Learn all the craft skills needed to work as a professional Baker/Patissier. Training includes ingredient and finished product knowledge, bread making, cakes, and pastries in all their various forms. Successful graduates will be ready for employment in any of the various settings where baked goods are required, from specialty bakeries to fine dining restaurants, hotels, resorts and cruise ships.

40 weeks; K; FT; ENG 10, FM 10 or AWM 10

Viticulture

Gain the skills and knowledge essential to farm a vineyard or seek employment in viticulture. Through this program you'll learn the scientific principles underlying grape growing for the purpose of wine production, the various influences on grape quality, and industry terminology. In addition, you'll learn vineyard management, vineyard equipment operation, maintenance, and safety.

307 hours; P; FT; ENG 12, 19 years or older

Wine Sales

Gain the knowledge and skills to work in the exciting sales side of the wine industry. Begin with the basics of grape growing and winemaking before moving onto legal regulations, industry standards, marketing and sales strategies, and knowledge of wine shop management and winery promotions.

147 hours; P; PT; ENG 12, 19 years or older, FOODSAFE certificate, Serving it Right certificate

Winery Assistant

Gain the knowledge and skills needed to work alongside the many master winemakers in our region. Learn the scientific principles underlying grape and wine production, influences on wine quality, industry terminology, winery equipment operation and maintenance, harvest and crush, sanitation and safety, wine sensory evaluation, and marketing and sales.

308 hours; P; PT; ENG 12, 19 years or older, FOODSAFE certificate, Serving it Right certificate

FOUNDATIONAL PROGRAMS

Adult Academic and Career Preparation (AACP)

Upgrading is offered in the following subjects: Biology, Chemistry, Composition, Computer Studies, English, First Nations Studies, Introductory Algebra, Law, Mathematics, Physics, Science and Social Studies. Varies in length; P/K/V/SA; PT/FT; 19 years of age or out of secondary school for at least 12 months and 18 years of age, or completed Grade 12, all students entering any Fundamental Level English or Basic Literacy course for the first time are required to complete an individual admission interview with a Fundamental Level English instructor

CERTIFICATES

(ABE) Adult Basic Education

Fundamental Level Certificate

This level is for students wishing to improve their basic skills or to prepare for the Intermediate Level program. See AACP description above for requirements

(ABE) Intermediate Level Certificate

This level prepares students for the Advanced Level program or for entry into post-secondary programs that have an admission requirement of Grade 10 or equivalent. See AACP description above for requirements

(ABE) Advanced Level Certificate

This level prepares students for the Provincial Level (with completion of English 012) for entry into many post-secondary programs that have an admission requirement of Grade 12 or equivalent. See AACP description above for requirements

(ABE) Provincial Level Diploma

This is the highest level of the Adult Basic Education program and requires rigorous study. The Provincial Level prepares students for admission to post-secondary programs. The student who completes this level is eligible for a British Columbia Adult Graduation Diploma. Students should consult an Educational Advisor and carefully select their courses if they plan further study at the post-secondary level

Adult Special Education (ASE) Basic Skills Certificate A

This program is for students who wish to develop academic and independent living skills. Program content includes courses that focus on basic literacy and math skills, interpersonal and self-management skills, creativity and self-expression, workplace awareness, and skills for increasing independence.

2-4 years; P/K/V/SA; PT/FT; applicants must be at least 19 years of age, or 18 years of age and have been out of the public school system for at least 12 months, or have a school leaving certificate; must complete an intake interview and reading assessment

Adult Special Education (ASE) Basic Skills Certificate B

This program supports level two and three students who wish to work on academic skills and independent living skills. Program content includes courses, which focus on literacy and math, interpersonal and self-management skills, creativity and self-expression, workplace awareness, and skills for increasing independence.

Length varies; P/K/V/SA; PT/FT; applicants must be at least 19 years of age, or 18 years of age and have been out of the public school system for at least 12 months, or have a school leaving certificate; must complete an intake interview and reading assessment

Adult Special Education (ASE) Advanced Skills Certificate

This program is for students who have successfully completed the Basic Skills B program, have demonstrated continued growth in their learning, and are committed to full-time attendance. Course work continues to focus on literacy and math skills, self-management and interpersonal skills, creativity and self-expression, workplace awareness, and skills

for increasing independence.
P/K/V/SA; PT/FT; successful completion of the BSCB certificate

English as a Second Language Certificate (ESL)

The goal of this program is to develop general language skills in listening, speaking, reading and writing. Length varies; K; PT/FT; assessment examination

English for Academic Purposes (EAP)

This program helps students improve their English for academic studies at college and university and bridges to a certificate, diploma, associate degree or degree program at Okanagan College.

4 semesters; K; PT/FT; assessment required

Preparing for Access to Education (PACE)

The educational focus is on developing student success skills and, if appropriate, choosing a modified and supported second-year specialty within the Supported Access to Modified Education. The vocational focus is on career awareness and the development of appropriate workplace attitudes, values, and behaviours, develops communication, assertive, stress management, and conflict resolution skills. 1 year; P/K/V/SA; PT/FT; applicants must be at least 19 years of age or be at least 18 years of age and have been out of the secondary school system for at least 12 months, or have a school leaving certificate

Supported Access to Modified Education Certificate (SAME)

This program enables students with cognitive disabilities, who cannot meet entry criteria for regular Okanagan College programs, to access modified versions of those programs. Students will be supported to develop specific vocational skills in a program that has been modified to meet their learning needs. They will also attend a weekly student support class. Successful students will receive an anecdotal grade and a modified certificate.

Length varies; P/K/V/SA; PT/FT; psycho-educational assessment and educationally specific documentation from a physician or medical specialist required

HEALTH AND SOCIAL DEVELOPMENT

FGREE

Bachelor of Science in Nursing - Years 1 and 2

In partnership with the University of British Columbia's Okanagan campus, this program provides years one and two of the four-year Bachelor of Science in Nursing (BSN) degree program offered at UBC Okanagan. Students who successfully complete all courses are granted admission into UBC Okanagan's BSN program and guaranteed course transfer credits to complete the final two years of the degree. 2 years; K; FT; ENG 12 70%, PREC 11 or FM 12, BIO 11 and 12, CHEM 11 and 12, plus one other approved Grade 12 course, additional regs (see Calendar)

DIPLOMAS

Early Childhood Education

Get the education you need to work as an early childhood educator in daycare and preschool settings with specialized training in infants and toddlers.

2 years; K; FT; ENG 12 67%, additional req (see Calendar)

Human Kinetics

Acquire a solid foundation in the art and science of human movement, with a choice of three distinct streams: Health and Fitness, Health and Physical Education, or Kinesiology and Health Science.

2 years; P*; PT/FT; ENG 12 60%, CHEM 11, PREC 11 or FM 11 and BIO 11 or 12, additional reg (see Calendar)

Human Service Work

Enhance the quality of life in your community. This program provides the skills needed for work as a social service/mental health support worker or as a community and classroom support worker.

2 years; K/V/SA; FT; ENG 12 60%, additional reqs (see Calendar)

Practical Nursing

Provide skilled care in a variety of settings in partnership with other health professionals. Graduates are eligible to write the Canadian Practical Nurse Registration exam in order to become Licensed Practical Nurses in B.C.

18 months; P/K/V/SA; FT; ENG 12 70%, PREC 11 67% or FM 11 67%, BIO 12 67%, PNUR 113 70%, additional req (see Calendar)

Therapist Assistant

Fulfill your passion to improve the quality of life of clients while working as a valued assistant to occupational, physical and recreational therapists.

2 years; K; FT; ENG 12 60%, CHEM 11, BIO 12, additional reqs (see Calendar)

CERTIFICATES

Certified Dental Assistant

Acquire the skills to work in a dental office in this program accredited by the Commission on Dental Accreditation of Canada and approved by the College of Dental Surgeons of British Columbia.

10 months; K; FT; ENG 12 60%, BIO 12 60% and 60% in either CHEM 11, 12, PHYS 11, 12, Applications of PHYS 11, 12, additional reg (see Calendar)

Health Care Assistant

Gain the knowledge to work as a frontline caregiver and respected member of a health care team in community and facility settings.

6 months; P/K/V/SA; FT; ENG 12 or ENG 11 60%, Grade 11 Science recommended, additional reg (see Calendar)

Pharmacy Technician

The Pharmacy Technician program prepares students to work in retail, hospital and long-term care pharmacies. Students will gain knowledge and skills relevant to the technical and clerical aspects of the pharmacy profession. This program has been awarded Provisional Accreditation by the Canadian Council for Accreditation of Pharmacy Programs.

20 weeks (plus 8 weeks of practicum); K; FT; ENG 12 60%, BIO 11 60% or BIO 12, CHEM 11 60%, PREC 11 60%, additional req (see Calendar)

INTERNATIONAL EDUCATION

See ESL programs in Foundational programs list.

TRADES

FOUNDATION (PRE-APPRENTICESHIP) CERTIFICATES

Aircraft Maintenance Engineer (AME), Category 'M' (Maintenance)

In partnership with Northern Lights College, this co-op program provides maintenance training for both rotary wing aircraft (helicopters) and fixed wing aircraft. Students will cover a wide range of subjects with emphasis on practical shop training. Graduates seek employment as apprentice aircraft maintenance engineers.

62 weeks; V; FT; ENG 11 67% or ENG 12 60%, PREC 11 60% or FM 11 67% or AWM 11 67%

Aircraft Maintenance Engineer (AME), Category 'S' (Structures)

This program consists of 50% classroom theory and 50% hands-on practical training in the shop that follows a national set of standards and is approved by Transport Canada. Students will acquire knowledge and skills in aviation structures, design and construction, fabrication and repairs, installation and assembly. Structures technicians are often an integral part of repair teams including maintenance technicians, avionics technicians and professional engineers. 37 weeks; K; FT; ENG 11, one of PREC 11, FM 11, or AWM 11

Automotive Collision Repair/Painting and Refinishing Technician

Students learn technical skills in body repair, cutting and heating technologies, MIG welding, surface preparation, and wheel alignments, among other skills. Graduates receive Industry Training Authority (ITA) credit for level 1 Apprenticeship technical training for both Auto Collision Repair and Automotive Refinishing Prep Technician. 38 weeks; K; FT; ENG 10, FM/P 10 or AWM 10

Automotive Refinishing Prep Technician

This program has been designed to provide graduates with the practical skills needed to find employment in the automotive refinishing/painting trade. Through demonstrations and hands-on practical shop training, students receive expert instruction on safe work practices, tools and equipment, surface preparation, sheet metal repair, plastics and composites, spot repairs, undercoats and topcoats. 22 weeks; K; FT; ENG 10, FM 10 or AWV 10

Automotive Service Technician

Students are trained to enter the automotive repair trade. Working with the latest tools and one of the finest fleets of industry-donated vehicles, not to mention instructor expertise that averages 15 years, students gain the experience to excel as automotive technicians.

30 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Carpentry/Joinery

Students receive training in the latest in building technology, from interior and exterior finishing details, site layout, and concrete forms, to construction of floors, walls, roofs and cabinets. Graduates work as carpenters and use their skills to build cabinets, furniture and more.

30 weeks; K; FT; ENG 10, one of PREC 11, FM 11, or AWM 11

Electrician

Combining theory with a considerable amount of hands-on training, students are prepared to work with various aspects of residential, commercial and industrial systems as well as rigging and hoisting equipment, hand and power tools, conductors and raceways, prints and drawings. Graduates will have the knowledge and skills needed to find employment in the construction, resource or transportation sectors. 24 weeks; P/K/V/SA; FT; ENG 12; one of PREC 11, FM 11, or AWM 11

Heavy Mechanical Foundation

This program provides practical knowledge and training in a real-world setting in four high demand trades: Heavy Duty Mechanics, Commercial Transport Mechanics, Diesel Engine Mechanics, and Transport Trailer Technician. The program includes a two-week industry work placement that may lead to permanent employment.

38 weeks; K; FT; ENG 10, one of PREC 11 67%, FM 11 67%, or AWM 11 67%

Metal Fabricator (Fitter)

This program provides students with the practical knowledge and skills for employment in steel fabricating and the construction industry. Students learn to read drawings and layout procedures, the fabrication process to build products with steel plates and structural steel shapes. The fabrication process will include shearing, cutting, punching, drilling, forming, fitting and welding.

23 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Plumbing and Piping Trades

Designed to take a student with little or no previous experience in the plumbing trade and supply them with the skills necessary to seek employment as an apprentice plumber. Students are exposed to aspects of residential, commercial and industrial systems in the trade with a focus on developing practical skills.

25 weeks: P/K/V/SA: FT: ENG 10, FM 10 or AWM 10

Recreation Vehicle Service Technician

This internationally-renowned program provides the training and skills required in the servicing and repair of recreation vehicles. Students learn a wide spectrum of skills including propane fitting, welding, carpentry, electrical systems and

28 weeks; K; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Refrigeration and Air Conditioning Mechanic

Students receive a solid foundation in the fundamentals of installing, servicing, and troubleshooting all aspects of heating, ventilating and air conditioning/refrigeration equipment. Learn welding and brazing techniques, drafting skills, basic electrical concepts, wiring schematics and much more needed to find employment in the heating, air conditioning and refrigeration industry.

25 weeks; P; FT; ENG 10, FM 10 or AWM 10

Residential Construction

This program introduces students to all aspects of the construction trades including the use of hand tools, portable power tools and other equipment used by carpenters. Through the construction of a residential wood-frame project students are given the opportunity to work with a variety of materials used by carpenters including lumber, panel products, concrete, fasteners and hardware.

30 weeks; P/V/SA; FT; ENG 10, one of PREC 11, FM 11 or AWM 11

Sheet Metal Worker

Students learn to use manual and computerized machinery to fabricate equipment out of stainless steel and other types of metals. Graduates of this program can seek employment within a variety of occupational environments such as residential, commercial and industrial sectors using a wide range of skills, which include the creation, installation, servicing and maintenance of duct systems.

20 weeks; K; FT; ENG 10, FM 10 or AWM 10

Studio Woodworking

Study woodworking from the craftsperson's perspective. With a primary focus on furniture this program offers a range of woodworking skill sets that can be adapted to any of the many disciplines within the Cabinetmaker/Joiner trade.

35 weeks; K; FT; ENG 10, FM 10 or AWM 10

Welder Foundation

Students will acquire a thorough understanding of welding materials, processes and applications and will work on a wide range of projects in a real world environment, instructed by experienced and knowledgeable instructors. Graduates will have the skills needed to find employment in the manufacturing, construction and services industries. 28 weeks; P/K/V/SA; FT; ENG 10; one of PREC 11, FM 11 or AWM 11

FOR A COMPLETE LIST OF APPRENTICESHIPS SEE PAGE 15

UNIVERSITY STUDIES IN ARTS

Students who do not meet the English requirement for the Associate Degree or diplomas may be admitted with conditions.

ASSOCIATE DEGREE

Associate of Arts Degree

Enhance your communication and critical thinking skills, and learn to apply research and knowledge that will help make a contribution to your field of study, your employer and your community.

2 years; P/K/V/SA; PT/ FT; ENG 12 60%

DIPLOMAS

Communications, Culture and Journalism Studies

Students will explore the social, political, and economic functions of news and communications media, the history of journalism, and cultural policy & theory. Particular attention will be paid to questions of social justice, as well as of identity and constructions of gender, race, class, sexuality, and nationality.

2 years; K*; PT/ FT; ENG 12 60%

Criminal and Social Justice

Obtain an Arts-based criminal justice education through a variety of social justice related courses in sociology, psychology, political science, and criminology, in addition to elective Arts courses.

2 years; P*; PT/FT; ENG 12 60%

Environmental Studies

Build on your passion for the environment in one of four program options: interdisciplinary environmental arts, environmental management, environmental science and geographic information science (GIS). Graduates are prepared to understand the physical principles governing the environment and the social and cultural aspects that influence human behaviour towards the environment. 2 years; K* (GIS only in SA); PT/FT; ENG 12 60%

International Development

Acquire a multidisciplinary understanding of current issues in international development in one of two program options: International Development Governance or International Development Management (a joint diploma program between Arts and Business).

2 years; K*; PT/FT; ENG 12 60%

Writing and Publishing

This two-year program provides students with the theoretical and technical skills necessary to navigating the diverse facets of the publishing industry. The mix of applied and academic courses takes students through the first stages of the writing process to the final post-production stages of publishing. The program's goal is to give students a wide breadth of knowledge and experience across multiple disciplines. From creative writing workshops to web publishing labs to book design studios to professional editing classes, the courses help students acquire the skills necessary to ensure their work resonates on both page and screen. 2 years; V*; PT/FT; ENG 12 60%

CERTIFICATE

Advanced Certificate in Communication

Develop skills in applied communication and enhance competence in areas such as professional writing, public relations theory and practice, management communications, marketing, writing, and visual communication.

18 credits; K; PT/FT; 60 credits of post-secondary study

UNIVERSITY STUDIES IN SCIENCE

Students who do not meet the English and/or Math requirement for the Associate Degree, may be admitted with conditions.

ASSOCIATE DEGREE

Associate of Science Degree

Develop practical experience and theoretical knowledge that will open the door to a myriad of career options or further studies in dentistry, medicine, pharmacy, veterinary medicine, optometry, forestry, high-tech, statistics, data analysis, and more.

2 years; P/K/V/SA; PT/FT/D; ENG 12 60%, PREC 12 $\,$

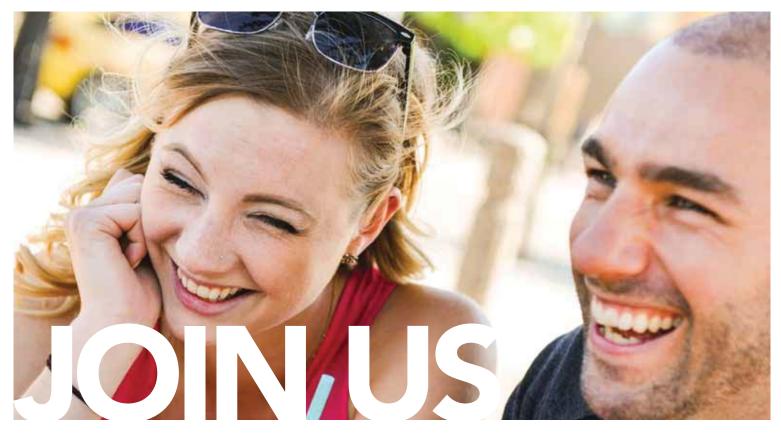

APPLY NOW

Become an Okanagan College Student

- CHOOSE YOUR PROGRAM
 - Decide which program and campus interests you. See pages 36-42 or check out program information at **okanagan.bc.ca/programs.**
- CHECK THE REQUIREMENTS

 B.C. Secondary School graduation or equivalent is required for entry into all degree, associate degree, diploma and most certificate programs. Go to okanagan.bc.ca/calendar for complete admission and minimum grade requirements including English language and mature applicant requirements.
- APPLY ONLINE
 Submit your application at okanagan.bc.ca/apply.
 Applications for most programs in the 2017-18 year open on Nov. 1, 2016. Many programs have multiple start dates throughout the year. Okanagan College accepts applications on an ongoing basis. Contact a recruiter at chooseoc@okanagan.bc.ca to find out more.
- TRACK YOUR APPLICATION

 Once you apply, you'll receive a student number and login information. See the status of your application and check on required documents such as official school transcripts through Okanagan College's intranet, myOkanagan.
- WE'LL BE IN TOUCH
 Staff from our admissions department will be in touch regarding your application via mail and email.
 In the meantime, visit our website for current College information about financial aid, student life, news, events and more. Connect with the College via Okanagan College's Facebook, Twitter, Instagram and LinkedIn accounts.

We invite you to experience one or all of Okanagan College's four campuses. Call our recruiters to arrange a guided tour and imagine your life as an OC student.
